

# BUBBLES

DESIGN – Anna Siedlecka & Radek Achramowicz

DESCRIPTION – Bubbles lighting screen is a transparent room divider constructed of Bubbles® system developed by PUFF-BUFF. The air is the main material, which the screen is built of. That's why despite its size it's very lightweight. Bubbles divider is invented for the events, fair, exhibitions, commercial and private interiors. Bubbles Lighting Screen is available in two forms:

- custom-made size divider (measurements according to customer's order)
- modular sheet W 95cm H 190cm / W 3'1" H 8'3"

Bubbles lighting screen it's made of transparent elastic PVC elements filled with air and LED light-points. 1 sq. meter sheet is made of 36 air-filled parts and the same amount of LED light-points. The divider can be mounted to any structure or stretched out on the rod or line. Fitted with transparent electrical cable and the low-voltage transformer in two options:

- in the cover of stainless steel and acrylic - to be ceiling-mounted or hidden in a suspended ceiling ( in custom-made divider)
- integrated with the plug (in modular sheet). Delivered inflated.

MADE IN POLAND

Body	PCV	transparent
Construction	INOX	
Light source	LED	36 light-points / m <sup>2</sup>
Standard colors of LED	○	warm-white 2700 K neutral-white 4000 K cold-white 6500 K
Available colors of LED		
Input voltage	240 V	110 V
Output voltage	9-24 V	transformer included
Power consumption	5 W	/ 1 sq. meter / 10 sq. feet
Weight Net/Gross	2,3 KG	5.0 lb / 1 sq. meter / 10 sq. feet
Package - lamp inflated		Dimension depends on the screen size

\*Standard cord length (other length on request)
