

HALF-SUPERSTAR

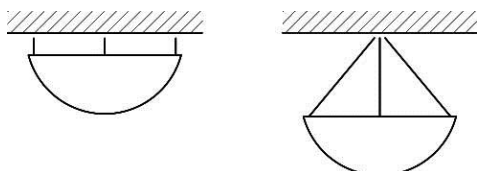

DESIGN – Anna Siedlecka & Radek Achramowicz

DESCRIPTION – Half-Superstar hanging lamp is constructed of Bubbles® system developed by PUFF-BUFF. It is made of air-filled parts in transparent electronically welded PVC with LED light-points. The air is the main material, which the chandelier is built of. That's why despite its size the lamp is very lightweight.

Elastic PVC elements filled with air and 55 LED light-points. Glossy finishing. Construction made of polished stainless steel. Fitted with stainless steel suspension cords (regulated length) and transparent electrical cable. The canopy in chromed and brushed steel hides the transformer. Delivered inflated.

Two possible options of hanging of the lamp: next to a ceiling or suspended on slings.

MADE IN POLAND

Body	PCV	transparent
Construction	INOX	
Light source	LED	55 light-points
Standard colors of LED	○	warm-white 2700 K neutral-white 4000 K cold-white 6500 K
Available colors of LED		
Input voltage	240 V	110 V
